

SUMMARY

Software Engineer with 4+ years building distributed systems, scalable APIs, and cloud infrastructure across enterprise and research platforms. Currently designing AI agents and healthcare applications at Lili Solutions Inc. Track record of delivering for enterprise clients, including Amazon and Puma, improving system reliability, and shipping full-stack features on GCP, AWS, Firebase, and Azure.

PROFESSIONAL EXPERIENCE

Software Engineer | Lili Solutions Inc. | Remote, WA

Apr 2026 – Present

- **Design** and integrate HIPAA-compliant voice and SMS AI agents using RetellAI, ElevenLabs, and Twilio, reducing operational overhead by 4x across 30+ automated healthcare workflows.
- **Architect** multi-tenant backend infrastructure on GCP using Cloud Functions, Firestore, and Secret Manager, implementing Zero-Trust security principles and HIPAA-compliant data handling.
- **Build** full-stack healthcare applications integrating GCP, Firebase, and LangChain to automate business workflows end-to-end.
- **Author** PRD, SRS, and technical architecture documentation for AI-driven healthcare applications, covering system design, security controls aligned to OWASP Top 10, and eval frameworks.

Software Developer | VersionX Innovations | Bengaluru, India

Jan 2021 – Apr 2023

- **Architected** 15+ REST APIs via Express/Node.js microservices, powering enterprise workloads for 200+ concurrent users across 5+ client integrations.
- **Drove** code and system health initiatives, improving system uptime from 97% to 99.5% across 3 engineering teams.
- **Optimized** API performance for 200+ enterprise users, reducing latency by 30% via bottleneck profiling; used GitHub Copilot to accelerate feature delivery.
- **Orchestrated** multi-phase AngularJS to Angular 12 migration across 8 enterprise logistics modules, cutting bundle size by ~30% and reducing page load time by 2s.
- **Streamlined** CI/CD pipelines on Azure via Jenkins and GitHub Actions, cutting release cycle time by ~40% and saving 6+ hours of manual effort weekly.
- **Led** development and backend delivery for enterprise security projects at Amazon and Puma using Angular and Node.js, building threat detection systems and face recognition attendance tools with RFID hardware integration.
- **Managed** end-to-end project delivery for a London-based security client, coordinating tech and testing teams via Asana, contributing to development, and achieving successful client sign-off.

Cloud Computing Developer | Oregon State University | Corvallis, OR

May 2025 – Apr 2026

- **Validated** end-to-end FaaS workflow execution across Python and R runtimes on GitHub Actions and MinIO, ensuring correctness of multi-step orchestration pipelines.
- **Diagnosed** and resolved serverless container failures, tracing dependency conflicts, S3 transfer errors, and inter-step state corruption, reducing pipeline incident resolution time by ~40%.

IAM Assistant | Oregon State University | Corvallis, OR

Feb 2024 – Mar 2025

- **Transitioned** ITSM workflows from TeamDynamix to ServiceNow, increasing system performance and audit traceability.
- **Automated** user lifecycle workflows in Python and Bash, eliminating 80+ manual steps and reducing access-related incidents by 14/month; secured 200+ requests via OAuth 2.0 and TLS.

PROJECTS

- **Subscription Management:** Full-stack Angular + Firebase platform with real-time analytics dashboards; reduced API load by 25% via GraphQL optimization.
- **E-commerce Test Automation:** Selenium framework validating 50+ UI workflows and 100+ API endpoints; reduced regressions by 80% via GitHub Actions + Jenkins.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, Java

Frameworks: React, Angular, Node.js, Express, Spring Boot, Flask, .NET Core

Cloud & Infra: GCP, AWS, Azure, Firebase, Cloud Functions, Secret Manager, Docker, Kubernetes, Terraform, Jenkins, GitHub Actions.

AI / ML & Data: LangChain, OpenAI API, RetellAI, ElevenLabs, Twilio, Pandas, Kafka, ETL Pipelines, REST, GraphQL

Observability / Methods: Grafana, Prometheus, Splunk, OAuth 2.0, TLS, IAM, Agile, Scrum, Jira, TDD

EDUCATION

Master of Science in Computer Science | Oregon State University | Corvallis, OR

Sep 2023 – Mar 2025

B.Tech. in Information Science and Engineering | Jain University | Bengaluru, India

Aug 2016 – Jul 2020
